The schools are having vacation, and we may expect to see the hoodlums usurp street and sidewalk. This product of American civilization has no respect for the rights of others.

At the Congregational church, on Christmas eve, a well-attended group of the little folk. Each one left with some present in remembrance of the event.

The steps leading to Gates' addition are in a dangerous condition. The street commissioners should clean these steps of ice and snow, and give the bluff residents some safe means of getting to their homes.

The impressive services of Christmas mass were performed at the Catholic church last Tuesday evening. The attendance was large, and the impressive services were commemorative of the birth of our Saviour was felt by all present.

The property has been cleaned clean sidewalks of snow and thus deprive the hoodlum element of converting the common thoroughfares of the city into a mass of treacherous traps, which make pedestrians constantly vigilant, and frequently cause bruises and other injuries.

The toboggan is a general place of resort these evenings. Yesterday it was generally patronized, and the people enjoyed it completely. It is royal fun, and exhilarates, recuperates, reinvigorates and rejuvenates the dormant energy and activity of the physique of those who follow its sedentary employment and lack exercise.

Christmas day was a happy, peaceful occasion in the Dalles. Various families met around the social board, and enjoyed themselves in a general family reunion.

The small boy scattered down the streets and sidewalks, the toboggan slide was generally patronized, and a few of our citizens indulged in the sliding herbage.

Dr. J. O. John Smith, who was brought to the county hospital from Astoria Saturday night, died Sunday morning and was buried in the cemetery here. He died in great agony from mortification of the limbs, exposed to be due to their being frozen while he was out on a hunting trip in the mountains. Little could be done to alleviate his suffering.

East Oregon Herald: Malheur county is up and doing, politically, and reports her candidates early enough to allow the voters a chance to pick the men that offer their services in the name of one or the other party. That is the best way to do. Give the voters a show to vote for "the man" and the supremacy of his "party principles" at one and the same time.

A paragraph is going the rounds about a girl dying from tight lacing. One hold newspaper man commenting on the fact says: "These corsets ought to be done away with, and if the girls can't live without being squeezed, we suppose man could be found who would sacrifice themselves. As old as we are we'd rather devote three hours a day without a farthing of pay, as a brevet corset, than see these girls dying in this manner. Office hours almost any time."

Astoria Pioneer: A reporter down from Oak Point yesterday, reports that W. H. Elwood of that place, met with a serious accident last Saturday afternoon. It appears that when a long distance from home he dropped his rifle, which in falling was discharged, the bullet taking effect in one of his arms, shattering the bones. The man had a long tramp over the mountains to his home from which he was sent to Portland. It is thought that it will be necessary to amputate the injured member.

Baker Democrat: Last Thursday on his way to this city, and on the train between the Homestead mine and Burnt River, C. W. Durkes was caught in a snow slide and covered up to a depth of over ten feet and only for the assistance rendered by his partner, George Robinson, who was close at hand he would certainly have perished. He remained under the snow in a standing position upwards of three-quarters of an hour, and totally unable to move hand or foot, free himself from his perilous position and all the time fully conscious of the danger that surrounded him. He says he does not believe he could have survived the ordeal much longer and when his friend uncovered the snow from his head it was the happiest moment of his life.

A very few men are employed at the locks now. The night watchman, the stable-keeper, and two or three to look after the plant. Snow lies on the ground about two feet.

Our people do not improve the present sleighing, which we acknowledge is not the best in the world. But next winter the ground may be bare, and we should acquire winter sports in any shape they come.

Some Good Samaritans, whose image will be etched on the grateful hearts of all pedestrians, sprinkled about a half inch of snow over the walk down Union street, through the cut. Walking is not so bad, and there is no danger of broken limbs.

Unnecessary Protection. Let the Escal be known so that it may suffer for its brutality.

We copy the following from the W. V. Union, and think the paper is doing wrong in holding the name of such a ferocious brute, although he may be a prominent business man of that community.
